

Space Launch
Components

Leading Solutions

- Single-piece construction eliminates welds, reducing assembly times & inspection requirements
- Near-net forming reduces input mass & machining hours (less waste)

Our Competitive Difference

- Complete range of Engineering & Manufacturing Capabilities on-site
- Experience with flow forming copper chamber liners and nozzles
- Smaller lot sizes with a fast turnaround

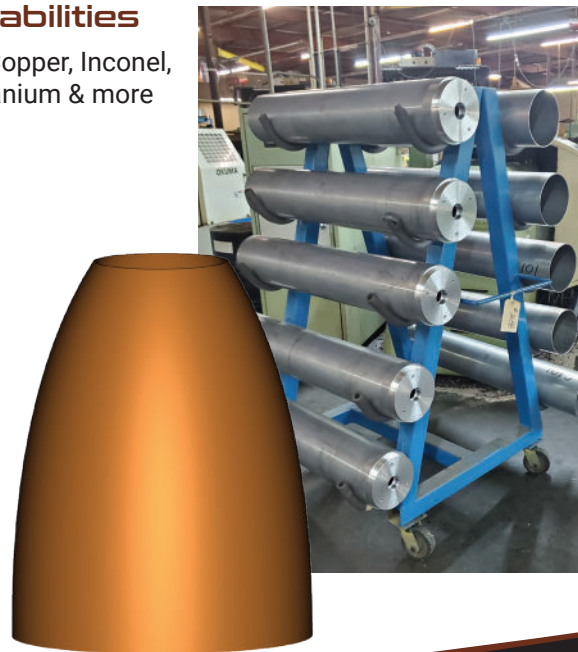

Manufacturing Capabilities

- Experience with Aluminum, Copper, Inconel, Niobium, Stainless Steel, Titanium & more

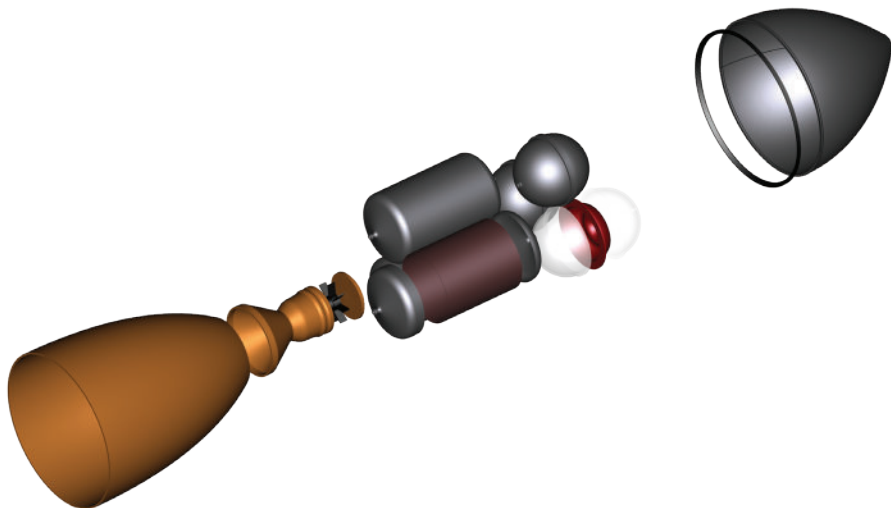

Sample Products

- Combustion Chamber Liners
- Engine Nozzle Liners
- Rocket Motor Cases
- COPV liners, full & half
- Domes
